Dylan Moore

Founder and engineer with research, people management, and industry experience in building human-centered AI agents.

Education

Dartmouth College – **PhD** in Engineering (Human-AI Interaction) 2021 – 2026
Committee: E. Murnane*, P. Bonfert-Taylor, L. Loeb, J. Landay *(Stanford)*. **Advisor*
Dissertation: *Designing Narrative-Based AI Assistance for Sensemaking in Collaborative Environments: Case Studies in Education and Dementia Care*

MEM – Masters in Engineering Management (concurrent with PhD) 2023 – 2024

Stanford University – **MS** in Computer Science (HCI focus, GPA 3.8) 2016 – 2018
BS in Computer Science (HCI focus, GPA 3.6). Advisor: Mehran Sahami 2012 – 2016

Industry

2023 – present **AI Researcher → Co-Founder & CAIO (2026), Memcara (memcara.com)**
Led agent UX design and engineering deployment of multimodal AI systems to support caregivers in long-term care facilities, combining video analysis, EHR data, and smart-glasses and chat-based just-in-time adaptive interventions (JITAIs). Developed systems including CareInsights IMWUT '25, Family in the Loop CSCW '25, and CareWare, which integrate dementia-specific AI-generated insights and clinical context directly into caregiver workflows. These systems are currently deployed across more than a dozen facilities in the northeastern United States, extending research from my PhD thesis into real-world care environments. I am leading a spinoff effort to develop an AI-agent evaluation benchmark for long-term care, similar to OSWorld v2.

2025 – 2026 **Co-Founder & CAIO, Companion IQ (companioniq.org)**
Led agent UX design and development of personalized, longitudinal interactions for myaicompanion.org, an AI companionship and daily check-in platform for older adults, serving 200+ daily active users. Raised >$1M in seed funding. Ongoing partnerships and clinical trials, including with Veterans Affairs (VA).

2021 **Software Engineer, YouTube (Google)**
Helped implement the "Super Thanks" crowdfunding feature as a full-time SWE working in TypeScript and C++ on the Paid Digital Goods Team.

2018 – 2021 **Software Engineer, Lark Health (lark.com)**
Helped build what was then the world's largest AI healthcare provider, focused on personalized, holistic AI health coaching for patients at risk for chronic diseases. One of two full-stack mobile engineers when I joined; led our app's transition to React Native and refactored our backend into microservices. During my time, Lark tripled in headcount and raised a $70M Series C. *TypeScript, Python, Node.js*

2011 – 2016 **Engineering Internships: Google (2), PayPal, Makani Power (Google X)**
Google: built ad extensions for AdWords and extended a Knowledge Graph data pipeline *(Dart, Angular, Java, C++)*. PayPal: designed and built a metrics dashboard for the Core Payments team *(JavaScript, Python)*. Makani: helped manufacture self-guided kites for high-altitude wind turbines *(SolidWorks, CNC)*.

First Author Publications

IMWUT 2025 / UBICOMP 2026 **CareInsights: AI-Enabled Infrastructure for Person-Centered Dementia Care**
doi.org/10.1145/3770687

JTiBS 2026 **Utilizing Artificial Intelligence for Suicide Risk Detection: Differences in Older Adults**
Co-first author, doi.org/10.1007/s41347-026-00649-9

CSCW 2025 **Family In The Loop: Enabling Family Involvement and Person-Centered Dementia Care with Collaborative AI Tools**
doi.org/10.1145/3757599

L@S 2025 **Collaborative Meaning-Making in Networked Learning Environments**
sites.google.com/andrew.cmu.edu/learnersourcing

CHI 2024 **Teaching AI in Extracurricular Contexts Through Narrative-Based Learnersourcing**
doi.org/10.1145/3613904.3642198

Teaching

TA at Stanford & Dartmouth (11 quarters): CS221 (AI), CS147 (HCI), CS181 (Ethics), CS109, CS106A/B, ENGM 191, Code in Place. **Workshop leader at TUMO** (2019–2022): Designed and taught high school courses on AI and interactive storytelling in Berlin, Beirut, and Yerevan. **Mentor:** UC Berkeley Fung Fellowship (2021), Stanford CS + Social Good (2020).

Awards

Rilla NYC Hackathon Winner (2025) · Dartmouth Digital Health Summit 3rd Place (2023) · SF Arthouse Short Festival First Place (2022) · Dartmouth Guarini Alumni Research Award (2022) · Dartmouth Innovation Fellowship (2021) · Dartmouth CompX Faculty Grant (2021) · Armenian Professional Society Scholarship (2021) · Stanford Teaching Honors (2017) · Eagle Scout (2012) · Intel ISEF 3rd Place, Physics & Astronomy (2011)
